Now CAS has a cooperation with Global Development which has also brought students from that programme.

The conclusion is that cooperation brings more students from other programmes.

The Head of Studies stipulated that cooperation is something that has the full backing of the faculty, and that any need for support from the faculty leadership is welcomed.

Ad 8) Discussion: Changes to curriculum

The Board had an initial discussion as to whether changes to the curriculum should be prepared. Suggested changes / development plans of the curriculum should be announced to the Dean, with a time plan for the Deans final approval in February the following year (for implementation in September the same year).

The Board found no need for changes at this time.

Ad 9) Discussion: Conversion of credits for students

The Board was informed of the work for a common practice for converting credits into ECTS across UCPH, making it easier for students to apply for pre-approval of courses for studies abroad.
